CURE
FOUNDATION
breast cancer

How far will these women go to beat breast cancer? How about more than 2500 km., racing across the Sahara desert in Morocco, with only their skill and courage to guide them? Yokohama is the proud Title Sponsor of Yokohama Team 172 in a field of more than 200, in the 19th annual all-female Rallye Aïcha des Gazelles. They're relying on the legendary performance of Geolandar A/T-S radials to go the distance. A portion of the proceeds goes to the Cure Foundation in the fight against breast cancer. For more information, visit www.Yokohama.ca. And let's leave breast cancer in the dust.
