AVID Ascend GT™

ULTIMATE ALL-SEASON PERFORMANCE

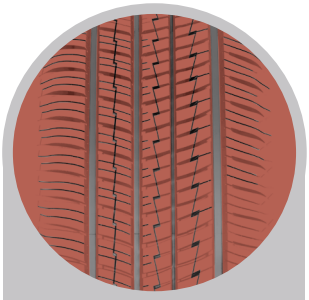

YOKOHAMA

AVID Ascend GT™

GRAND TOURING EXCELLENCE

RAIN OR SHINE

We've taken the AVID Ascend to a new level and created the all-new, next-generation AVID Ascend GT. And with 53 H and V-rated sizes that brake shorter in the rain, run quieter and last longer, just think of it as the AVID Ascend on steroids.

SHORTER WET BRAKING

ASYMMETRIC TREAD DESIGN

With an all-new asymmetric tread design, the groove arrangement is engineered to provide aggressive traction on wet roads.

ALL-SEASON TRACTION

MULTIPLE 3D SIPES AND NOTCHED BLOCKS

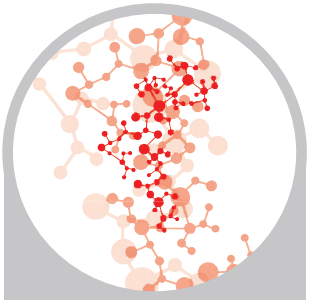

Performance matters most in cold weather so hundreds of 3D sipes and a notched block tread design produce more grip for true all-season traction.

QUIETER RIDE

OUTSIDE ADAPTIVE SHOULDER

An adaptive outside shoulder provides stability to the shoulder blocks assuring even wear and a smoother, quieter ride throughout the life of the tire.

LONGER TREAD LIFE

TriBLEND COMPOUND

An all-new TriBLEND compound and an ultra-square contact patch produce long, even wear that retains its all-season traction.

UTQG: 740/A/A
